1- Storage Tank Roof Air Raising

Roof Air Raising is a Technique used in storage Tanks construction to improve construction Performance and minimizing safety hazards

For General Contracting
Your Successful Partner

Advantage

- Erection of tank roof at bottom level (safe erection & reducing cost).
- Roof construction may be started at the beginning of tank shell erection to minimizing the whole construction time.
- The roof can be installed in it is final position in one single day.
- Applicable for any type of tank roof.
- Effective solution especially in heavy weight tanks > 200 ton in cost & time manner.

For General Contracting

Pervious projects

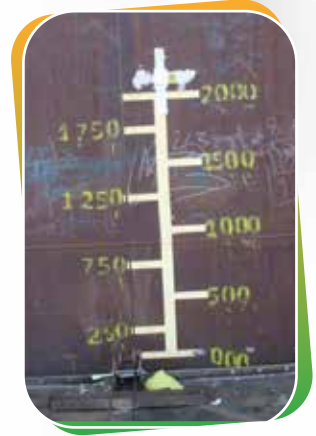

Client: Ibn Majid General Contracting (IMCO)

Location: Iraq

-Fire water doom roof tank

Roof dimeter = 70 MT

Roof weight = 500 ton

Client: ASEC for Industrial Projects and Manufacturing (ARESCO)

Location: Suze, Egypt

-Four crude oil storage tanks floating roof

Roof dimeter = 110 MT

Roof weight = 1020 ton

Client: Petroleum Projects And Consultation (PETROJET)

Location: Ras Gharib, Egypt

-Four crude oil storage tanks floating roof

Roof dimeter = 110 MT

Roof weight = 1020 ton

Pervious projects

Client: TAQA ARABIA
Location: Kafr EL-Shikh, Egypt
Black Sand factory Natural gas
P.R.M.S Leak Test (77bar)

Client: TAQA ARABIA
Location: Kafr EL-Shikh, Egypt
Gheilion factory Natural gas P.R.M.S
Leak Test (77bar)

Client: Gasco
Location: Cairo, Egypt
West Cairo Power Plant Natural gas
P.R.M.S Leak Test (77bar)

Client: Intercement
Location: Alexandria, Egypt
Leak Test for facilities piping
(77bar, 12 bar and 7 bar)

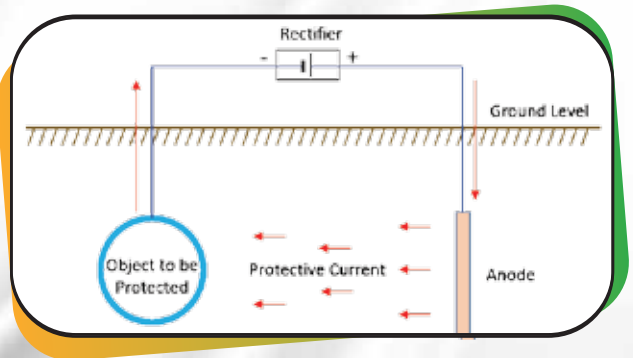

3-Cathodic Protection Services

FEPCO has the expertise To install galvanic and Impressed current cathodic Protection systems in piping Systems, storage tanks and Marine structures.

Our engineers understand the Principles of corrosion, we can Provide you with a cost Effective corrosion control System designed to protect Your infrastructure and prevent Corrosion in new structures And mitigate corrosion in Existing structures.

Business area

- Pipelines
- Piping systems
- Storage tanks
- Marine structures
